Professional Summary

Data Analyst with hands-on experience in working with databases, data visualization, and data-driven applications using MySQL, Excel, Python, and modern analytical tools. Skilled in data cleaning, reporting, dashboard creation, and extracting meaningful insights from complex datasets. Strong focus on problem-solving, statistical analysis, and delivering accurate, business-oriented solutions to improve decision-making and operational efficiency.

Technical Skills

Programming & Query Languages: Python, SQL, JavaScript

Data Analysis & Visualization: Excel, Power BI, Tableau, Chart.js

Database: MySQL, MongoDB, SQLite

Cloud Platforms: Microsoft Azure, Google Cloud Platform (GCP)

Tools & Technologies: Pandas, NumPy, REST APIs, Git, Data Cleaning, Data Visualization, Statistical Analysis

Work Experience

Laravel Developer Intern – Enjay IT Solutions Pvt. Ltd. (Mar 2025 – Jun 2025)

- Developed and deployed 5+ web applications using Laravel, PHP, and MySQL.
- Designed CRM modules for lead tracking, task management, and sales reporting improving workflow efficiency.
- Built and integrated RESTful APIs enabling smooth data communication between frontend and backend.
- Optimized database queries and backend logic, improving application performance and response time.

Data Analyst Intern – Elevate Labs

- Worked on data analysis, data cleaning, and visualization projects using Python, SQL, Excel, and Power BI.
- Analyzed datasets to identify trends, patterns, and business insights for decision-making.
- Created dashboards, reports, and visualizations to present analytical findings effectively.
- Performed data preprocessing and statistical analysis to improve data accuracy and reporting efficiency.

Projects

CRM System – Laravel, Tailwind CSS, SQLite

- Developed a full-stack CRM system with lead management, task tracking, and sales modules.
- Implemented user workflows and database design for efficient data handling.

AI Chatbot – MERN Stack, Google Gemini API

- Built an AI-powered chatbot with React frontend and API integration for dynamic responses.

Netflix Data Analysis – Python, Pandas, Power BI

- Analyzed Netflix datasets to identify content trends, genre popularity, and release patterns.
- Created interactive dashboards and visual reports for data-driven insights and audience analysis.

Walmart Sales Analysis – Python, Excel, Power BI

- Performed sales data analysis to identify revenue trends, customer purcha

COVID-19 Data Analysis – Python, Pandas, Matplotlib

- Analyzed COVID-19 datasets to track case growth, recovery trends, and regional impact.
- Created data visualizations and comparative reports for better understanding of pandemic patterns.

Customer Churn Analysis – Python, Machine Learning, Scikit-learn

- Built a customer churn prediction model to identify customers likely to leave services.
- Performed data cleaning, feature analysis, and visualization to improve prediction accuracy.

Education

Bachelor of Computer Applications (BCA) – R.K. Desai College of Computer and Applied Science

CGPA: 9.0

Higher Secondary (12th) – SVP High School

Certifications

- Python Certification Course
- Microsoft SQL Certification Training
- Artificial Intelligence Course

Languages

English, Hindi, Gujarati
